Home: Rabat, (Morocco)

ABOUT ME

Computer Engineer holding a State Engineering Degree from ENSA Agadir, currently working as a **Mobile Engineer** at Tandeem. Hands-on experience in mobile development with **Flutter** (Provider, Dio, Firebase, Clean Architecture), as well as in designing and integrating SaaS features and in testing. Particular interest in **Backend, Cloud and DevOps**, with hands-on experience in **Java, AWS, Docker, Terraform and Git/GitHub**.

WORK EXPERIENCE

Tandeem – Rabat

Mobile Engineer

[02/02/2026 – Current]

- Designed and developed a **mobile SaaS application with Flutter**: **Provider** for state management, **Dio** for REST API integration, **Firebase Firestore**, **Firebase Analytics** and **push notifications** (Firebase Cloud Messaging).
- Designed and deployed the **AWS** infrastructure as **Infrastructure as Code** with **Terraform**: **VPC, ALB, ECS, ECR and RDS**.
- Secured and monitored the platform with **AWS WAF** and **Amazon CloudWatch**.
- Set up and managed the **Development, Staging and Production** environments, with containerised deployment (**Docker**) and **CI/CD** pipelines.
- Designed and developed the **backend** with **Node.js**, **PostgreSQL**, **Prisma** and **Redis**.
- Worked directly with the **client (banking sector)**: gathered and analysed requirements, then designed **tailored solutions** for its business needs.
- Worked within a **Scrum methodology**, in close collaboration with the Backend, Frontend and Mobile teams.

Optifood – France (Remote)

Software Engineer – Mobile & Backend

[04/2026 – 09/2026]

Restaurant Management SaaS Platform

- Designed and developed the **KDS (Kitchen Display System)**, **self-ordering kiosk (Kiosk)** and **delivery management** modules.
- Developed the **Flutter** mobile application following **Clean Architecture** principles, with **Provider** for state management and **dependency injection**.
- Integrated REST APIs with **Dio** (interceptors, token authentication, error handling) and **real-time chat synchronisation** with **PubNub**.
- Stored data locally in a **local database** (Sembast, SharedPreferences) with a **synchronisation** mechanism with the backend for offline use.
- Developed the backend with **Java / Spring Boot** and **Redis**, and managed versioned database migrations with **Flyway**.
- Deployed and hosted the solution on **AWS**.

ADMDI – Agadir

Software Engineer Intern

[01/02/2025 – 02/05/2025]

Biometric Attendance System

- Developed a Spring Boot web application integrating the ZK9500 fingerprint sensor for real-time attendance management.
- Secure authentication of students and teachers with Spring Security.
- Deployed on AWS ECS with Docker, with data stored in a MySQL database on AWS RDS.
- Improved the speed and reliability of absence tracking through real-time processing.

EDUCATION AND TRAINING

State Engineering Degree in Computer Engineering

National School of Applied Sciences (ENSA) [2021 – 2026]

City: Agadir

PROJECTS

[2025]

Event Management Application

- Spring Boot backend application to create, manage and join events
- Developed, tested and deployed the full backend lifecycle
- Set up unit tests to ensure API reliability
- Real-time communication with WebSockets
- Secured with Spring Security and integrated Spring AI for smart suggestions
- Deployed on AWS via Docker

[2024]

Classroom Management System

- Java EE web application with Hibernate JPA and MySQL to manage bookings and timetables.
- Built REST APIs to manage bookings, schedules and notifications.

CERTIFICATIONS

Oracle Certified Professional: Java SE 17 Developer

SKILLS

Languages

Java / Dart / C++ / C / SQL

Backend

Spring / Spring Boot / REST APIs / PHP Laravel web development

Mobile

Clean Architecture / Flutter Framework (Intermediate) / Firebase

Cloud & DevOps

AWS / Docker / Git / CI/CD / ECR / ECS / GitHub

Databases

MySQL / PostgreSQL

Architecture & Methodologies

Agile / UML / SaaS Architecture / Scrum

LANGUAGE SKILLS

Mother tongue(s): Arabic

Other language(s):

French

LISTENING B2 **READING** B2

English

LISTENING B2 **READING** B2

VOLUNTEERING

Agadir

Motatawi3 2024

- Took part in workshops on the environment, health, AI and social engagement, followed by two weeks of volunteering at a neighbourhood hospital.

Guidance – 2024

- Led 3 guidance sessions for high-school students on studies after the baccalaureate, including a presentation of ENSA and the possible paths.
